Innovation opportunities in EIC FET funded projects

Workshop

27 Giugno 2019

Politecnico di Milano

Aula MEL 1 Edificio B20, 1° piano,

Via Lambruschini 15, Milano

Innovation opportunities in EIC FET funded projects

The workshop on *Innovation opportunities in EIC FET funded projects* would like to identify the main innovation opportunities and possible critical aspects of Italian participation to EIC Pathfinder Pilot Calls for Proposals, by clarifying key aspects related to innovation and IP management within the framework of deep-tech business models.

The objective is to scrutinize the business models of future EIC Pathfinder and Accelerator projects bridging between low and higher TRLs.

14.00	<p>Welcome</p> <p><i>Agenzia per la Promozione della Ricerca Europea</i></p>
14.10	<p>EIC Pathfinder</p> <ul style="list-style-type: none"> - Innovation Opportunities for research- driven funded projects under FET Open and Proactive - Italian participation in EIC FET Open & Proactive: qualitative & quantitative analysis <p><i>Marta Calderaro and Gianluigi Di Bello, H2020 FET National Contact Points</i></p>
14.45	<p>FET researchers and projects: needs and opportunities for developing customized supporting services</p> <p><i>Monica Rossi, PoliMi, Briefing project</i></p>
